

Letter of Recommendation

11/14/13

Scott Kuehler
Kiewit – Superintendent
1230 P St.
Lincoln, NE, 68508

To Whom It May Concern,

I am delighted to write this letter of recommendation on behalf of K2 Construction and the services they provided. Kiewit contracted K2 Construction to provide everything necessary to perform all Geothermal Well Field work on both the Phi Kappa Theta Fraternity and the St. Thomas Aquinas Catholic Church/Newman Center here in Lincoln, NE.

The well operation consisted of 77 wells that needed to be drilled and set to a depth of 625 ft. This was no easy task as the jobsite area was limited and very congested. K2 Construction took the necessary steps to adjust for this and get the job done right. The schedule for the project was also a factor that had to be dealt with, and with only 3 months to get the wells in K2 worked around the clock (2 - 12 hour shifts) to accommodate for Kiewit's schedule. While working day and night K2 Construction was accident free, and for us at Kiewit we were very impressed by the safety first mindset K2 Construction brought to the project.

They have stand up individuals in the company that are dedicated to what they do. From the guys out in the field to those managing and running work, we couldn't have asked for a better contractor to work with. Everybody was a team player, and did their role to get the job done productively, on time, and safely.

I'm glad to recommend K2 Construction and the services they provide. If you have any questions, please feel free to contact me.
